

prident

Your position

SPRING 2026

Position yourself on sustainable, useful & obvious products.

We live in a world full of communicative noise. It's not easy to be heard for those who want to reach out. That's where **Plastprint** has played its role - and that's where Prident will continue to operate.

Communication relies on relationships. That's what we help our clients with - creating and reinforcing their relationship with their customers and target audience.

Who wouldn't be happy with the little

thing, perhaps received as a gift, that proves useful in everyday life - it could be the parking disc with an ice scraper, the water bottle, the coffee mug... or anything that, with our small imprint, reminds of the sender. We have given that little thing an identity - it's no longer an anonymous product but a message carrier that encourages continued engagement. With our products, we are a link, often the first one, in relationship building that requires care, honesty, and long-term commitment - just like

in any relationship. This creates **PR** that strengthens our clients **identity**, and that's the essence of our new name, **Prident!**

And please consider the "place marker," the symbol in our logo, not only as a location but as a symbol of a meeting place where communication flows and where you dare to take your place.

This is what we offer from Bredaryd, in the heart of Småland Sweden.

Wood

Unique bottle

Item no. 36561
Color: Offwhite

Item no. 36566
Color: Black

Made in
SWEDEN

Unique new bottle where we have combined the base material of our usual sports bottle with wood fiber from the forests of Småland. This gives the product a unique outward expression that exudes sustainability and innovation. The product has a very low CO2 footprint and is a self-produced bottle based on a high proportion of renewable raw materials. Available in off-white and red colors. Note: The wood content imparts a forest scent, and the taste of the beverage may be affected until the product has been conditioned and washed a few times.

Dimensions: 600 ml, height 200 mm.

Max printing surface: 211 x 135 mm.

Dare to be Unique

Close cooperation with some of Sweden's leading industrial designers and interior architects led to this unique water bottle. Design by Stig Ahlström. Renowned designer of, among other things, the Pick Up tongs.

Water Bottle Design

Unique design

Here, your brand takes its place on a unique item that will accompany you to the gym, office, or on an outing. On the collar of the product, your logo or message is placed, and then its undulating form enhances the impression. Can be advantageously combined with our hanger in matching contrast color. Launched in black with black flip cap.

Water Bottle in Custom Color

Do you need help finding a matching product color for your logo or message? From a quantity of 2500 water bottles and up, we can create a unique color for you. Applies to all Aquahero models. Contact us for more information or a quote.

Don't forget your water bottle.

On the walk, run, outdoor gym.

Everyone deserves a second chance!

Are you in the front line in regards of sustainability? Placing your logo on a used object reduces the environmental impact and will be the topic of conversation on the golf course. All golf balls are subjected to a 100% ocular check. Many of the balls just got one chance in life and your mission is to put them back on the course, and brand it with your unique logo.

The new circular concept uses high quality balls with 100% new feeling, no marks and no previous prints. You can choose from a quality Krikland Tour ball and a Taylormade Noodle. We brand your logo in full colour print and the golf balls are supplied to you in a 3-pcs paper box.

All balls have a unique story and the talk of the day will be who made the first birdie with the ball or if it sliced out of bounds at its first hit.

Golfballs

Recycled quality golfballs

Ball 1. Kirkland Signature Performance + A upcoming tour ball, often compared with Pro V1 and other great tour balls. 3-layer ball with polyurethane shell for long distance and controlled play near the green. A quality ball at an affordable price.

Ball 2. TaylorMade Noodle 22- Easy Distance. For the ordinary golfer. A ball that, with the help of its protective shell, provides extra durability at the same time as it maintains distance and control. The ball for you who are a nice average golfer and realize that not everything depends on the "ball".

The golf balls are delivered in environmentally friendly cardboard packaging, which is also available with own branding upon request.

Drink Cooler

IcanCool

Swedish innovation and manufacturing. Keeps drinks and other items cold during warm spring and summer days. Works as an ice pack in your bag, but primarily as a can and drink cooler on the beach, the golf course, or during outings. Fits cans with a diameter of < 59 mm.

Fill with water before first use, then freeze. After 6 hours it's ready to bring along on your adventures. Keeps cold for 3–8 hours.

A perfect event product, summer gift, or effective giveaway..

Seat pad premium

With handle

Extra-thick and slightly larger seat pad, ideal for those who value maximum comfort during breaks. Also well-suited as knee protection for gardening, carpentry, or flooring work, thanks to its impressive 14 mm thickness. This cushion is slightly larger than our standard version to comfortably accommodate both knees, and its wider rear section ensures you stay dry and warm when sitting on a bench.

Visible in the dark

With reflectors, a car driver can see you from 125 meters away.

Good to know about reflectors

Reflectors save lives! Yet still only a few adults use reflectors. Most people think that as long as we can see the vehicle the driver can see us, but on dark and wet roads it is virtually impossible to detect pedestrians not wearing reflectors in time.

This is how a soft reflector is made

Our soft reflectors are manufactured using an approved and highly reflective quality material. A reflector hanger is built up of two layers of the reflective film to reflect from both sides. The print is made on a white liner that is placed between the transparent, reflective layers in white or fluorescent yellow material before the reflector is fitted together. This ensures a 100 % effective reflective surface.

Our slapwraps also contain a stainless steel spring for guaranteed spring force around the arm or ankle. It consists mainly of recycled steel.

Soft Reflector Hangers

Make sure you are visible in the dark with a reflective hanger!

Choose from several standard models or contact us if you want to create your own design. Print under the reflective surface. Packed with ball chain or string and needle.

The product is approved according to CE EN 17353:2020 B1. In order to fulfill the requirement in the standard, at least two hangers must be worn at the same time.

For backside print, 15% is added to the rear price.

Reflector Stickers

Reflector

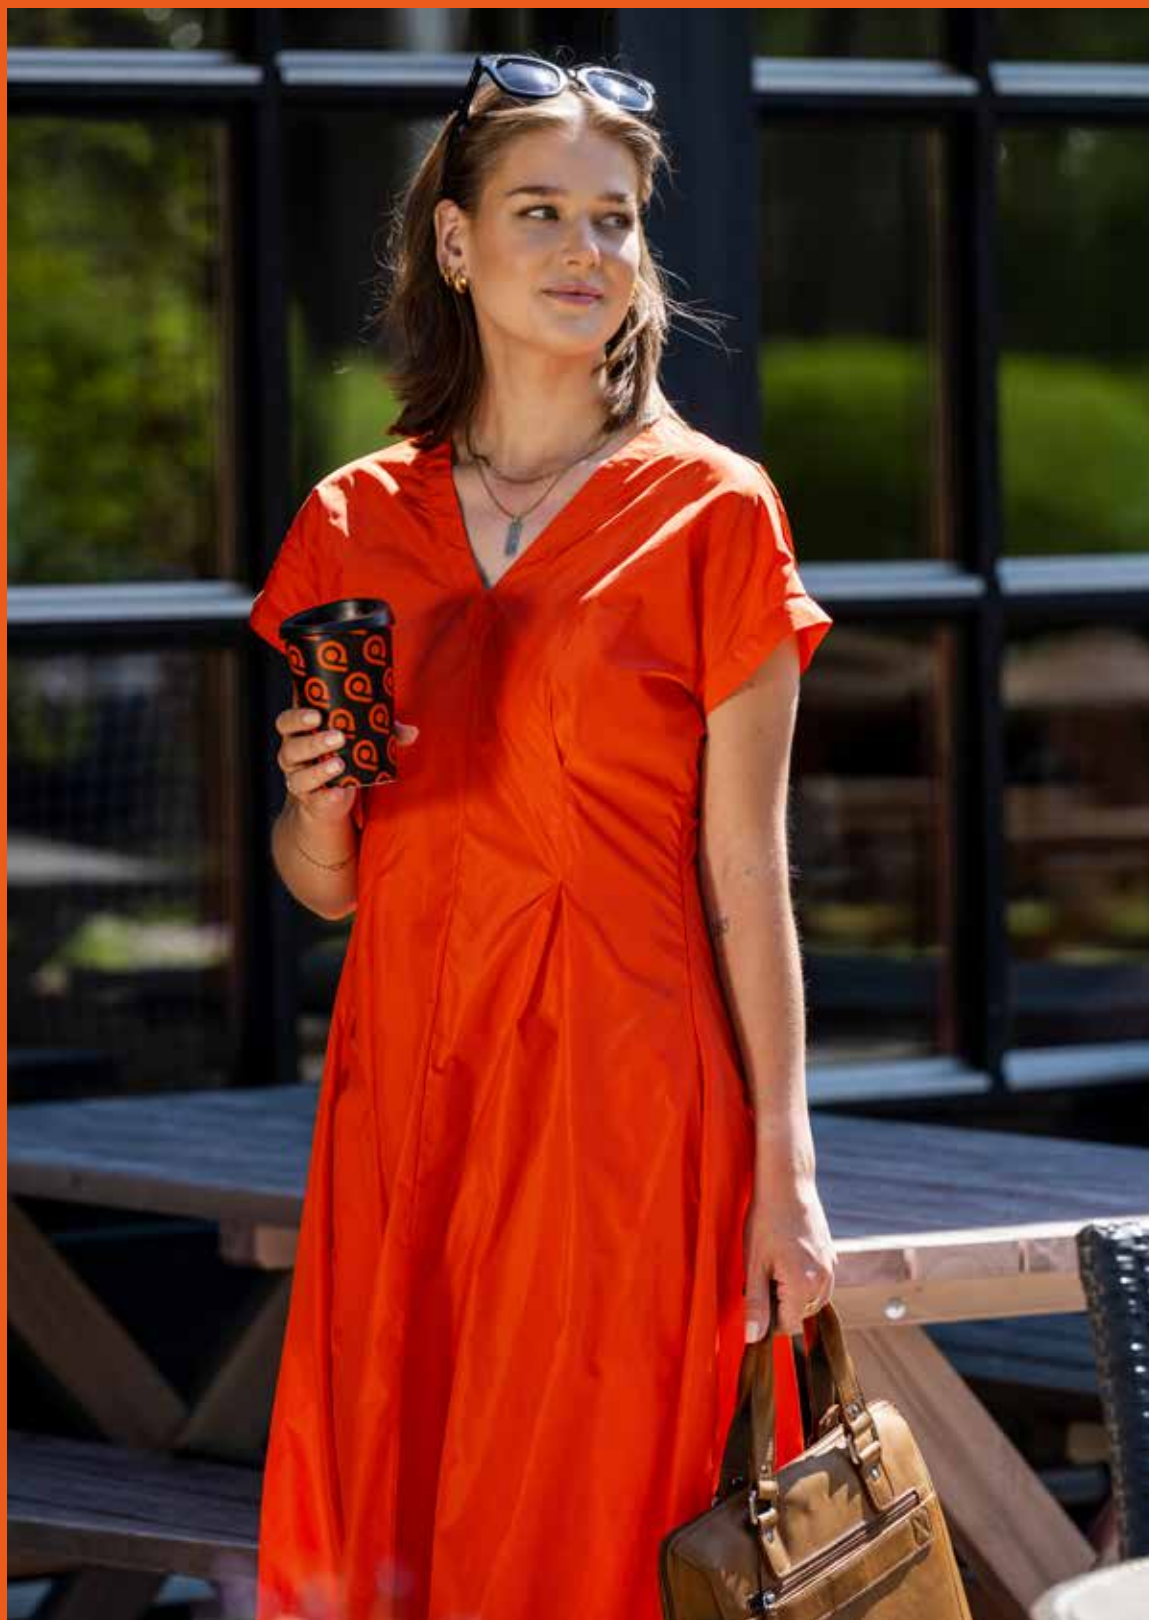

Popular reflective sticker. The back of the reflective material is coated with a self-adhesive textile glue, allowing for easy attachment to backpacks, outerwear, or bags.

Please note: This is a permanent sticker that is difficult to remove and may leave visible marks. It is intended to remain in place for the lifespan of the product or be replaced with a similar sticker.

The price is based on standard shapes.

The Ice Age Scraper

Transparent

The popular multifunctional ice scraper is also available in a transparent version. In addition to functioning as a parking disc, it allows you to check tire tread depth, use the groove to clear ice from wiper blades, or tackle tough ice on your windshield with the serrated edge.

The parking clock is not pre-printed. Choose from our templates or design your own. Please note: Due to its transparent design, printing is possible on only one side — the "clock side."

Dimensions: 120 x 100 mm.

Thickness: 2,4 mm.

Maximum printing surface: 100 x 90 mm

Tire marker

Smart Marker

Now there is a new smart tire marking. It is good to rotate the front tires to the back, and vice versa, to even out the wear on the tires; provided there is no major difference in tread depth/grip. In which case, the best tires should be on the back wheels. The tires should also turn in the same direction, so do not move the tires to the other side of the car. Which is why it is good to keep track of which wheels the tires were on when reattaching them. 1-4 colour prints or photo prints.

Dimensions: 120 x 100 mm.**Maximum printing surface:** 29 x 45 mm x 4 pcs
